Chris:

A belated sincere Thank You for a job well done! You and Mike did a good job of seeing the process through to a successful conclusion. Having not been through this before, I sometimes lost patience with the minutia required. But thanks to your team and to Julie I was held in check.

I'm of course pleased with the outcome financially - but perhaps even more so with the excellent quality of the acquiring company personnel.

I wish you and Promontory continuing success.
