Dear Steve,

Again PPC was able to guide us through a strategic process that resulted in the successful acquisition of a high-pressure die cast company that further integrates our precision machining company. As you know we have had a very successful relationship with your firm now spanning well over six years. We appreciate the ends you went to towards the development of a target list of acquisition prospects that fit our criteria. Your firm's evaluation of each prospect that we collectively contacted was critical to each step we took forward in addressing our acquisition objectives. And as in the past, once we found the right party, you helped to shepherd the successful completion of a transaction from "A to Z" including due diligence guidance and legal review. In addition I am pretty sure your repeated consultation with the leadership of the target company we purchased resulted in post-transaction operating continuity without interrupting our objectives.

Therefore once again, and on behalf of all of us at American Metal Technologies, I would like to take the opportunity to thank you and your team for the assistance you provided us in the successful search and completion of the acquisition of Kotobuki Die Casting. This process was of critical importance to the growth of our firm and there's no question that we would not have been successful without your involvement.

Sincerely,

Craig Bayer
CFO
